THE NEW SOAP. A Perfect Skin Healer and a Delightful Refreshing Toilet Article.

NO OTHER LIKE IT.

The first skin and toilet soap ever manufactured by the slow process is proving a revelation to soap users. This is not surprising when you remember that heretofore it had been thought impossible to make soap of so fine a kind without the grease, oil and alkali. These ingredients have been the base of all soaps from time immemorial and have been collected by street scavengers or purchased from incinerating plants which burn the refuse of our cities; not an agreeable thing to think of, but nevertheless true. To be sure many of these are nicely perfumed and do not make as pure as possible; but the alkali is strong enough to kill the grease and oil, it destroys and hardens the skin. If the reverse, the pores of the skin become clogged and disease follows, all the medication in the world cannot prevent it—what a delightful change then to have a soap free from these ingredients and made from the fragrant, given leaves of the Tasmanian Blue Gum Tree. These leaves being acknowledged by the medical profession as the most harmless as well as the most powerful germ destroyer and skin purifier known.

A bath with Hygienic Skin Soap is simply delightful. It leaves the skin soft, cool and refreshed, imparting to it the peach-like bloom of health.

It is guaranteed to cure all diseases of the skin. Sold by all druggists or sent by mail, price 25 cents.

The local mill men have not heard of the condition of the water in the Moosehead lake, but they presume that it gained very little during the rains. The water in the river has fallen off slightly, showing that a great deal more rain will be needed to place it on a solid working basis for the winter.

Next to sliding down the balustrade children like, perhaps, rolling down grassy slopes. There was a bunch of children engaged in this sport, the other day. They had selected a steep place and were racing. One of them would give the word: "Ready, go!" Then they would go rolling rapidly down and over down the steep decline, laughing as they rolled. They thought it was great fun, but a gentle-looking woman, accompanied by a child of her own whom she held by the hand, did not think so. Her face was an index to her feelings.

A prominent clothier says: Now that colored shirts are so universally worn, the question of what neckwear harmonizes with the various colors has become a very important one. To see a man with a white shirt and a red necktie is something to make a woman and a child stare at. With a light blue shirt is pretty nearly as bad. As a rule, black and white will go with any colored shirt, but if colors are worn, they should contrast exactly or they should contrast radically.

For instance, garnet or dark cardinal looks well with a blue shirt. Black, lighted with lavender loks well with a pink shirt, and navy twill, striped with white, will be correct when worn with shirts where pink or red is the predominating color.

The resignation of Dr. Ralph Hunt, assistant surgeon at the Tugue Soldiers' Home, has been formally accepted by the president of the board of managers. Dr. Hunt is to practice his profession in his native city, Bangor, and his old friends who he has made among the veterans during his four years' service in the home, heartily wish him the success which he deserves and which no doubt he will attain in his new field. Dr. Hunt is a son of Mr. and Mrs. Abel Hunt, of Bangor, and a graduate of Bowdoin College and Medical School. He is an able physician and surgeon and his many friends in this city will be pleased to learn that he is to locate here. Dr. Hunt will be succeeded by second assistant surgeon at Tugue, and the vacancy on the staff will be filled by the appointment of Dr. W. S. A. Kimball of Portland, who filled the position of intern in the hospital staff for a short time last summer. Dr. Kimball is a graduate of Bowdoin College and of the Medical School of Maine, and has served on the house staff of the Maine General Hospital.

DE PHILLIPS' FUNERAL. Impressive Services at the Hammond Street Church on Wednesday.

No such tribute has been paid to any public man in Bangor for many years as that which was tendered paid to the memory of Dr. J. H. Phillips on Wednesday afternoon when the funeral services were held at the Hammond street Congregational church at half past two o'clock. The church was filled almost to overflowing and the services were simple but impressive. The casket, resting in front of the pulpit, which was banked with a great profusion of the most beautiful flowers, given by the many friends of Dr. Phillips. The women of the church, the Eastern Maine General Hospital, sent a wreath of exquisite white roses; the medical staff sent a broken column of chrysanthemums; the Bangor Harvard Club gave a beautiful piece, a thing of a Harvard shield made of crimson roses with white center, across which ran the word "Veritas." The nurses at the hospital sent a great basket of La France roses. The Penobscot Medical Association sent a floral basket. A great many flowers were also given by friends. The Phillips pew on the right hand side of the church was cut off by a gate of white chrysanthemums. At the opening of the service the Apollo quartet rendered a beautiful selection, after which Rev. Henry L. Griffin, pastor of the church, read several passages from the Gospel and delivered exceedingly well chosen remarks, eulogizing Dr. Phillips' noble and lovable character, with which all his friends were so familiar. The quartet then sang again, and after an impressive prayer by Rev. Dr. Griffin, the services were concluded.

The remarks of Rev. Dr. Griffin were very touching and eloquent, expressive in their simplicity of the appreciative sentiments which found such a warm echo in the hearts of all present. The tribute to the departed as a true and devoted friend, a noble man, a man of eminent ability in his profession, as a generous and helpful to the poor, and a devoted son, was most touching and expressive.

The quartet sang two selections, "The Last Hope" and "Finger Ring," favorite selections of the deceased.

The funeral cortege was a long one, reaching from West Market square to Union street, when the carriage proceeded down Main street. The drag was covered and the casket lay down, out of respect to the deceased. A very thoughtful and proper act on the part of the church, and the police department.

The funeral cortege, all home and street, was being preceded by the principal thoroughfares. The police department, the band of Dr. Phillips' family, the band of the Tugue Soldiers' Home, and the band of the Maine General Hospital, all accompanied the funeral cortege.

On the street, as the funeral passed, people stopped and gazed with happy interest, and the whole city seemed to pay tribute to the memory of the deceased.

The quartet then sang again, and after an impressive prayer by Rev. Dr. Griffin, the services were concluded.

The remarks of Rev. Dr. Griffin were very touching and eloquent, expressive in their simplicity of the appreciative sentiments which found such a warm echo in the hearts of all present. The tribute to the departed as a true and devoted friend, a noble man, a man of eminent ability in his profession, as a generous and helpful to the poor, and a devoted son, was most touching and expressive.

The quartet sang two selections, "The Last Hope" and "Finger Ring," favorite selections of the deceased.

The funeral cortege was a long one, reaching from West Market square to Union street, when the carriage proceeded down Main street. The drag was covered and the casket lay down, out of respect to the deceased. A very thoughtful and proper act on the part of the church, and the police department.

The funeral cortege, all home and street, was being preceded by the principal thoroughfares. The police department, the band of Dr. Phillips' family, the band of the Tugue Soldiers' Home, and the band of the Maine General Hospital, all accompanied the funeral cortege.

On the street, as the funeral passed, people stopped and gazed with happy interest, and the whole city seemed to pay tribute to the memory of the deceased.

THE NEW SOAP. A Perfect Skin Healer and a Delightful Refreshing Toilet Article.

NO OTHER LIKE IT.

The local mill men have not heard of the condition of the water in the Moosehead lake, but they presume that it gained very little during the rains. The water in the river has fallen off slightly, showing that a great deal more rain will be needed to place it on a solid working basis for the winter.

Next to sliding down the balustrade children like, perhaps, rolling down grassy slopes. There was a bunch of children engaged in this sport, the other day. They had selected a steep place and were racing. One of them would give the word: "Ready, go!" Then they would go rolling rapidly down and over down the steep decline, laughing as they rolled. They thought it was great fun, but a gentle-looking woman, accompanied by a child of her own whom she held by the hand, did not think so. Her face was an index to her feelings.

A prominent clothier says: Now that colored shirts are so universally worn, the question of

JAPANESE GOODS

High Grade.....

SIGNOR MARCONI SAILS

The Expense of Wireless Telegraphy Reports Successful Work—American Rights Sold.
New York, Nov. 8. Guglielmo Marconi, the exponent of wireless telegraphy, sailed for Southampton today on the American liner steamship St. Paul.

NEW JERSEY

Trenton, N. J., Nov. 8. At the election in New Jersey Tuesday the Republicans elected the candidates for senator in seven of the eight counties, but the senate of 1901 will be the same politically as that of 1897. The Republicans, however, made a gain of seven assemblymen.

IOWA

Des Moines, Iowa, Nov. 8. Election returns came in slowly Wednesday, but continued to be more favorable to the Republicans. Gov. Shaw's (Rep.) plurality, which Tuesday night was figured at 52,000, is now declared to be 51,000, by the Republican committee, the Democrats conceding 5,000. The comparison with the vote of two years ago, shows Republican gains, although the vote is much lighter than then. Several counties heretofore Democratic have now become Republican.

MASSACHUSETTS

Boston, Nov. 8. The explosion with which the Massachusetts election returns were completed today and the almost unquestioned decisions in every county in the state has already given impetus to the approaching municipal elections, of which the news by the city of Boston is a foreboding omen.

KENTUCKY

Columbus, Ky., Nov. 8. The satisfaction at the Republican headquarters has been busy all day and night endeavoring to secure some accurate figures on the plurality of Judge Nash, the Republican candidate for governor, and tonight an unofficial table of pluralities by counties was completed. This shows that in 107 counties Nash, Rep., has 129 over McLean, Dem., and in 31 counties McLean has 34,035 over Nash. This gives Nash over McLean in the state 56,354. It is now believed the official returns will make any important change in the figures.

DEWEY'S WEDDING

The Washington Post Says the Ceremony Will Take Place Thursday.
Washington, Nov. 8. The Post tomorrow will say: "Admiral George Dewey and Mrs. Mildred Hazen will probably be married today. No announcement has been made but the license was procured yesterday and arrangements for the wedding, which will be attended only by members of the two families, are complete. The hour of the ceremony depends on the weather, but it is expected to be at 2 o'clock, upon the lawn of John R. McLean, Mrs. Hazen's brother from Ohio."

STILL FAVORABLE

No Change for the Worse in Vice President Hobart's Condition.
Canton, N. J., Nov. 8. Vice President Hobart passed a favorable day today. There was no change in his condition. He received a telegram from Senator Frye of Maine, who is in the hospital, and was greatly pleased at the improvement of Mr. Hobart and wished the improvement could be permanent.

STILL FAVORABLE

No Change for the Worse in Vice President Hobart's Condition.
Canton, N. J., Nov. 8. Vice President Hobart passed a favorable day today. There was no change in his condition. He received a telegram from Senator Frye of Maine, who is in the hospital, and was greatly pleased at the improvement of Mr. Hobart and wished the improvement could be permanent.

SOUTH DAKOTA

More City Give Smith. Dem., for governor, a majority of 1122 in the city and returns and estimates from the balance of the state give him total majority of 11,295.

VIRGINIA

Richmond, Va., Nov. 8. The returns show that the state senate will be entirely Democratic, the only member outside the regular party nominees being W. B. Stuart, Independent Democrat from Isle of Wight. The house will be composed of 93 regular Democrats, three Independents and four Republicans. Martin will secure the nomination in the party caucus for United States Senator by a safe majority.

UTAH

Salt Lake, Utah, Nov. 8. Thompson, Rep., for mayor, has a majority of 636. The Republicans also elected recorder and auditor and the Democrats the attorney and justice of the peace. Council stands 9 Democrats and 6 Democrats. The Democrats elected mayors in Ogden, Provo, Park City and Logan.

PENNSYLVANIA

Philadelphia, Pa., Nov. 8. In this city the total vote cast was 152,332. The registration was 218,354. The contest on the state ticket was over the office of state treasurer.

OHIO

Columbus, Ohio, Nov. 8. The satisfaction at the Republican headquarters has been busy all day and night endeavoring to secure some accurate figures on the plurality of Judge Nash, the Republican candidate for governor, and tonight an unofficial table of pluralities by counties was completed. This shows that in 107 counties Nash, Rep., has 129 over McLean, Dem., and in 31 counties McLean has 34,035 over Nash. This gives Nash over McLean in the state 56,354. It is now believed the official returns will make any important change in the figures.

—that is the cry of the large manufacturing houses at present. The late deliveries from the mills, and last month's unseasonable weather caused many cancellations, on account of which the manufacturers of Men's and Boys' Clothing are overstocked. The result is that all are striving most strenuously to dispose of this overstock to large cash buyers at a tremendous sacrifice. Last week we took our pick, buying the most desirable Suits and Overcoats at prices which do not ordinarily prevail until the very end of the season. That is why we offer our customers the very cream of this season's production, at prices hardly covering the cost of cloth and trimmings.

MEN'S SUITS.

\$7.50—Will buy a good style Dress Suit in black or dark blue, wool cloth, fine and strictly all wool—either with single or double breasted coat, never sold less than \$10.00, at.....

Weston, State superintendent of schools. The lectures will be followed by discussions and questions are always in order. There will be a picnic dinner in grange hall, beans and coffee will be furnished by the grange.

MEN PROMINENT IN STATE AFFAIRS.

In the Municipal Court on Wednesday Cornelius Lynch, of Boston, was sent to jail for 30 days for drunkenness, as was also William McCabe who gave his address as Ireland.

The Woman's Christian Temperance Union will meet in the Y. M. C. A. parlors today at 3 P. M. The executive committee are requested to be present at 2:30 to consider a measure which is to be brought before the ladies.

Quite rapid progress has recently been made upon the new Morse-Oliver block, at the corner of State and Exchange streets and the fancy brick has been arriving in more plentiful quantities and has been quite speedily laid in place. Another assortment of brick arrived in the city on Wednesday and it will be placed in position as rapidly as possible.

The Pullman Car Company advise that for the month of October the Pullman sleeping cars running between Boston and Greenville made the largest earnings per car of any Pullman line in New England, exceeding the earnings per car of the Boston-St. John line and Boston-Bangor lines, which have been considered the banner lines.

On Wednesday Game Warden W. I. Neal returned to Bangor from Augusta, where

on Tuesday he and Warden G. W. Rose took several Vanboro guides for a hearing before the game commissioners on the charge of dogging deer. Decision in the case was reserved and it will probably not be made public until there has been further investigation. The guides were in Bangor Wednesday on their return.

BANGOR BOY CHOKED.

George N. McNeil Loses His Life By Suffocation On Wednesday Morning.

On Wednesday morning George N. McNeil, twelve years of age and son of Peter B. McNeil, who lives on Farmer street, lost his life by suffocation as the result of the choking of a part of bottle stopper in his windpipe. On Sunday morning while opening a bottle with his teeth, the metal cap of the stopper came off and lodged in his windpipe.

He experienced some pain but it soon subsided and it was thought that the object would work out. On Wednesday morning the awakened people in the household by trying for help and when they hastened to him he was found to be suffering. A physician was at once sent for but every effort to save his life failed. The metal cap had caused a swelling which gradually stopped his breath.

Young McNeil was in altar boy at St. Mary's Catholic church and was greatly liked by all his faithful companions as well as by his older friends. The funeral will be held on Sunday at 2 P. M. and the altar boys at St. Mary's church will be the pall bearers.

HOW GAS IS MADE.

What a Whig Reporter Saw and Heard at the Works of the Bangor Gas Light Company.

Few people of Bangor fully realize the extent of the industries carried on right in our own city. One of the greatest of these is the manufacture of gas at the works of the Bangor Gas Light Co., on Main street, which a Whig reporter visited the other day. The coal used in the process is known as Westmoreland coal, and coming here in Peasey's large quantities, being dumped in the gas sheds which are separate from the works themselves. The first part of the apparatus consists of a stack of five benches, in each of which are 8 retorts with a pipe running from each retort to the main gas pipe. There are only twelve retorts now in use. The coal is placed in these retorts which are made of stove brick and lined with about four hours to a white heat, the fire being in a separate compartment. The process distills the gas from the coal, and it passes upward through large pipes into the main pipe where the coal tar is deposited, passing from the coal tar which goes through a series of irregular hollow cylinders known as the York scrubber, invented by Superintendent York. From the scrubber the gas passes through a series of pipes which are made of stove brick and lined with about four hours to a white heat, the fire being in a separate compartment.
